

Science Questions Grade 1&2

PART 1: SPACE SCIENCE

1. What is the center of our solar system? **Sun**
2. Which planet is closest to the Sun? **Mercury**
3. Which planet is known as the Red Planet? **Mars**
4. Which planet has rings? **Saturn**
5. Which is the largest planet? **Jupiter**
6. Which planet is farthest from the Sun? **Neptune**
7. Which planet is called Earth's twin? **Venus**
8. What do we call a group of stars? **Constellation**
9. Which star gives us light and heat? **Sun**
10. What is Earth's natural satellite? **Moon**
11. What do we call the path Earth takes around the Sun? **Orbit**
12. What do we call the spinning of Earth on its axis? **Rotation**
13. What is a huge ball of hot gases called? **Star**
14. What is a shooting star called? **Meteor**
15. What do astronauts wear? **Spacesuit**
16. Where do astronauts live in space? **Space Station**
17. What is used to study distant stars? **Telescope**
18. What helps scientists travel to space? **Rocket**
19. What is the shape of the Earth? **Sphere**
20. Which planet is called the Blue Planet? **Earth**
21. How many planets are in our solar system? **8**
22. Which planet do we live on? **Earth**
23. What appears in the sky at night and twinkles? **Stars**
24. What shines at night by reflecting sunlight? **Moon**
25. What do planets travel around? **The Sun**
26. What force keeps planets in orbit? **Gravity**
27. What is a giant collection of stars called? **Galaxy**
28. What is the name of our galaxy? **Milky Way**
29. What do we call a person who travels into space? **Astronaut**
30. What is the Moon covered with? **Dust and rocks**
31. Which planet is second from the Sun? **Venus**
32. Which planet is the largest? **Jupiter**
33. Which planet has the tallest volcano? **Mars**
34. Which planet is known for strong winds? **Neptune**

35. Which planet is tilted on its side? **Uranus**
 36. What do we call rocks that travel through space? **Asteroids**
 37. What is an icy object with a tail called? **Comet**
 38. What causes day and night? **Earth's rotation**
 39. How long does Earth take to rotate once? **24 hours**
 40. What is the first phase of the Moon after a New Moon? **Crescent Moon**
 41. Which planet is the hottest? **Venus**
 42. Which object is bigger, the Earth or the Moon? **Earth**
 43. What can we use to see faraway stars? **Telescope**
 44. What do astronauts need to breathe in space? **Oxygen**
 45. Which planet is called the Morning Star? **Venus**
 46. What do we call people who study space? **Astronomers**
 47. What is the nearest star to Earth? **Sun**
 48. What keeps us on the ground? **Gravity**
 49. What do planets, moons, and stars together make? **Solar System**
 50. What do we call a bright streak of light in the night sky? **Meteor**
-

PART 2: CHEMICAL SCIENCE, AIR, WATER & MATERIALS

1. What is H₂O? **Water**
2. What gas do humans breathe in? **Oxygen**
3. What gas do humans breathe out? **Carbon Dioxide**
4. What gas do plants need for photosynthesis? **Carbon Dioxide**
5. What gas do plants release? **Oxygen**
6. What gas fills balloons and makes them float? **Helium**
7. What is the freezing point of water in Celsius? **0°C**
8. What is the boiling point of water in Celsius? **100°C**
9. What is the process of changing liquid into gas? **Evaporation**
10. What is the process of gas changing into liquid? **Condensation**
11. What is the process of water turning into ice? **Freezing**
12. What is the process of ice turning into water? **Melting**
13. What is salt dissolved in water called? **Salt solution**
14. What is the universal solvent? **Water**
15. What gas is needed for burning? **Oxygen**
16. What is the main gas in air? **Nitrogen**
17. What instrument measures temperature? **Thermometer**
18. What is air made of? **Gases**
19. What is the process of separating solid impurities from water? **Filtration**
20. What is the process of removing salt from seawater? **Desalination**
21. What are the three states of matter? **Solid, Liquid, Gas**

22. Ice is a _____. **Solid**
 23. Water is a _____. **Liquid**
 24. Water vapour is a _____. **Gas**
 25. Which material comes from trees? **Wood**
 26. Which material is transparent and used in windows? **Glass**
 27. What do we use to write on paper? **Pencil**
 28. Which metal is used in electrical wires? **Copper**
 29. Which floats on water, wood or stone? **Wood**
 30. What do we call something that dissolves in water? **Soluble**
 31. What do we call something that does not dissolve in water? **Insoluble**
 32. What are clouds made of? **Tiny water droplets**
 33. What form of water is snow? **Solid**
 34. What colour is pure oxygen? **Colorless**
 35. What is the lightest gas? **Hydrogen**
 36. What is rust made of? **Iron Oxide**
 37. Which metal rusts when exposed to moisture? **Iron**
 38. What is the chemical name of table salt? **Sodium Chloride**
 39. What material is used to make bottles and windows? **Glass**
 40. What is rainwater collected in rivers and lakes called? **Fresh Water**
 41. What gives carrots their orange colour? **Beta-Carotene**
 42. What is used to check air pollution? **Sensor**
 43. What kind of change is burning paper? **Chemical Change**
 44. What kind of change is freezing water? **Physical Change**
 45. What colour is copper? **Brown**
 46. What colour is gold? **Yellow**
 47. What is used to store gases under pressure? **Cylinder**
 48. What is the source of fresh water on Earth? **Rain**
 49. What happens when ice gets warm? **Melting**
 50. What happens when water gets very cold? **Freezing**
-

PART 3: EARTH SCIENCE & HUMAN BODY

1. What shines in the daytime sky? **Sun**
2. What helps plants grow? **Sunlight**
3. What is the hard part of Earth's surface made of? **Rock**
4. What changes the shape of land slowly? **Wind**
5. What do we call it when wind or water carries away soil? **Erosion**
6. What do rivers flow into? **Ocean**
7. What is the layer that protects us from harmful rays of the Sun? **Ozone Layer**

8. What is formed when ice melts? **Water**
9. What do we breathe in from trees? **Oxygen**
10. What do plants grow in? **Soil**
11. What can we find in soil that helps plants grow? **Nutrients**
12. What covers most of the Earth? **Water**
13. What is the topmost layer of Earth called? **Crust**
14. What should we save to help Earth? **Water**
15. Which layer of Earth is the hottest? **Core**
16. What do we call the blanket of air around Earth? **Atmosphere**
17. Which part of a plant absorbs water? **Roots**
18. Which part of a plant makes food? **Leaves**
19. What do plants need to grow? **Water, air and sunlight**
20. What season is usually the hottest? **Summer**
21. How many senses do humans have? **Five**
22. Which organ helps us think? **Brain**
23. Which organ pumps blood? **Heart**
24. Which organs help us breathe? **Lungs**
25. Which body part helps us smell? **Nose**
26. Which body part helps us hear? **Ears**
27. Which body part helps us see? **Eyes**
28. Which body part helps us taste? **Tongue**
29. What is the largest organ in the body? **Skin**
30. What keeps our body standing upright? **Bones**
31. What helps bones move? **Muscles**
32. What is the framework of bones called? **Skeleton**
33. What connects bones together? **Joints**
34. What system breaks down food? **Digestive System**
35. What part keeps your heart safe? **Ribs**
36. What carries messages in your body? **Nerves**
37. Which organ removes waste as urine? **Kidneys**
38. What helps you bend your arm? **Elbow**
39. What should we do every day to stay fit? **Exercise**
40. What carries blood through your body? **Blood Vessels**
41. What system includes the heart and blood? **Circulatory System**
42. What do we wear to protect our head while cycling? **Helmet**
43. Which part of the plants carry water to all parts? **Stem**
44. What is moving water in nature called? **River**
45. What do we call the top layer of soil? **Topsoil**
46. What should we do with waste to help the environment? **Recycle**
47. Which body part has 32 teeth in adults? **Mouth**

48. What keeps our body protected from germs? **Skin**
 49. What do we need to eat to stay healthy? **Nutritious Food**
 50. What organ controls all body activities? **Brain**
-

PART 4: GENERAL SCIENCE

1. What is the main source of light and energy? **Sun**
2. The tallest landform on Earth. **Mountain**
3. The largest organ of the human body. **Skin**
4. The solid form of water. **Ice**
5. The process of changing water into vapour. **Evaporation**
6. On which day is World Environment Day celebrated on? **June 5**
7. The bird that can fly backward. **Hummingbird**
8. The largest sea animal. **Blue Whale**
9. How many days are there in a year? **365**
10. Which is the main source of water? **Rain**
11. How many colours are there in a rainbow? **7**
12. Which organ is known as the boss of the body? **Brain**
13. What is Earth's natural satellite? **Moon**
14. Which is the tallest animal on Earth? **Giraffe**
15. The study of plants is called? **Botany**
16. Which part is known as the kitchen of the plant? **Leaf**
17. Which internal organ helps purify blood? **Kidneys**
18. When do we celebrate Earth Day? **April 22**
19. Which part of the plant absorbs water and minerals? **Root**
20. What is the baby of a camel called? **Calf**
21. Which instrument makes tiny things look bigger? **Microscope**
22. Which instrument measures weight? **Weighing Scale**
23. Lack of Vitamin D causes? **Rickets**
24. Lack of iron causes? **Anaemia**
25. What are animals that eat only plants called? **Herbivores**
26. What do bees collect from flowers? **Nectar**
27. What is the baby of a frog called? **Tadpole**
28. What is the hardest part of our body? **Teeth**
29. What is the young one of a butterfly called? **Larva**
30. What are plants that grow in water called? **Aquatic Plants**
31. What do plants use to breathe? **Stomata**
32. What type of energy comes from the Sun? **Solar Energy**
33. Which natural disaster shakes the ground? **Earthquake**

34. What animal is called the king of the jungle? **Lion**
35. Which bird cannot fly? **Ostrich**
36. What is the fastest land animal? **Cheetah**
37. What do bees make? **Honey**
38. What is the baby of a cat called? **Kitten**
39. What is the baby of a dog called? **Puppy**
40. What is the baby of a sheep called? **Lamb**
41. Which animal gives us wool? **Sheep**
42. Which animal gives us milk? **Cow**
43. What do carnivores eat? **Meat**
44. What do omnivores eat? **Plants and Animals**
45. What is the largest land animal? **Elephant**
46. What is the national bird of the UAE? **Falcon**
47. How many days are there in a week? **7**
48. How many months are there in a year? **12**
49. What do seeds grow into? **Plants**
50. What is the hardest substance in the human body? **Tooth Enamel**

End
